

NATIONAL HOIST
committed for safety and quality

Low Head Room Type

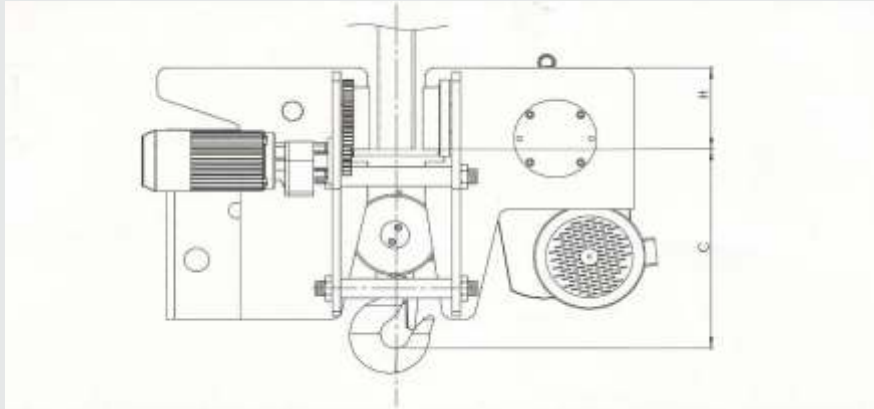

ELECTRIC WIRE ROPE HOIST

Have optimum space utilization with

A World class Product by
NATIONAL HOIST

German technology and a World Class ELECTRIC WIRE ROPE HOIST

SWL(t)	Lifting Height	H(mm)	C(mm)
1.6	6,9	126	450
3.2	6,9	126	450
5.0	6,9	158	600
6.8	6,9	158	600
10.0	6,9,12	232	600
12.5	6,9,12	232	600

Features

- Modular lightweight Construction and designed hoists with very low headroom
- Hoisting Gearbox, motor and brake is one single compact unit eliminating any coupling and alignment problems
- All Gear drives are made in German and are lifetime lubricated
- Modular construction with optimally matched components
- Space saving, future oriented design
- Compact wire rope made in France
- Two Speed Hoisting drive with soft start/stop feature
- Two speed cross travel drive in with built in flywheel and soft start /stop feature
- Extremely low noise levels during operation
- All motors are pole changing crane duty motors with class F insulation
- Dual disc asbestos free DC brake designed for first adjustment after 1 million cycles
- Equipped with upper and lower position geared limit switch
- Heavy duty wire rope guide for rope guidance
- Easy to service electrical control system
- Overload limit switches available as an option
- Variable frequency drive available as an option on hoist as well as cross travel drives
- Remote control pendant available as an option
- Compact design with low weight/output ratio provides a highly efficient, quiet and long lasting operation.
